Blu Parrot

DevOps Analyst

May 2025 - July 2025 (3 months)

Gurugram, Haryana, India

-> Spearheaded end-to-end deployment of diverse projects—including web apps, ML/LLM models, and data scrapers—for high-profile clients such as Suzuki, Bajaj Capital, and Josef.

-> Built and deployed scalable frontend and backend applications using modern stacks across AWS, Azure, and GCP environments.

-> Designed and implemented complete CI/CD pipelines from scratch using Jenkins, enabling rapid and reliable delivery.

-> Collaborated with developers directly and Managed infrastructure provisioning, monitoring, and automation single-handedly as the sole member of the DevOps function.

ZIGRAM

Technology Intern (AWS cloud)

January 2025 - March 2025 (3 months)

Gurugram, Haryana, India

- Worked in hybrid cloud, managing API deployments, flush n fill activities, RDS upgrades, CloudWatch alarms, server monitoring, and Jenkins CI/CD
- Used python scripting and cloud shell scripting to fasten the processes of tasks
- Documented deployment processes, and maintained a resource data sheet of different services
- Optimized costs through analysis & infrastructure clean-ups

Dezario Infotech

Cloud Intern

July 2024 - October 2024 (4 months)

Delhi, India

ACORPORATE X
